DETAILED ACTION***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

Claims 1-27 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 1, 2, 4-6 and 9-15 of U.S. Patent No. 6,565,441 B1. Although the conflicting claims are not identical, they are not patentably distinct from each other because they are all directed toward the same dedicated wireless DVD controller for video game consoles or a universal remote control including the absence of control over game functions of the video game console.

Allowable Subject Matter

Art Unit: 3713

Claims 1-34 would be allowable applicant overcomes the double patenting rejection, set forth in this Office action.

Terminal Disclaimer

The terminal disclaimer filed on March 24, 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,565,400 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Response to Arguments

Applicant has overcome the 35 U.S.C. 102(f) rejection by showing that the U.S. Patent No. 6,565, 400 and the present application were commonly owned at the time the invention was made.

Applicant has overcome part of the double patenting rejection by filing a terminal disclaimer for Patent No. 6,565,440. However, Applicant has not filed a terminal disclaimer to overcome the double patenting rejection for U.S.

Patent No. 6,565,441.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3713

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
